

~~CONFIDENTIAL~~

5 March 1980

MEMORANDUM FOR: General Counsel
FROM: Director of Central Intelligence
SUBJECT: Materials on Charters for Griffin Bell

1. Griffin Bell phoned me last night. John Ellif of the SSCI has arranged for him to testify on the afternoon of 27 March on charters. He will be in town that morning for a meeting of the Martin Marietta Board of which he is a member. []

25X1

2. Griffin would like some materials from us to get ready for the hearings. I would appreciate if you would prepare something special for him. Clearly we would want to emphasize the two points of principal contention. Beyond that, we would want to succinctly list the other six areas of disagreement from my testimony. We should send him a copy of the draft charter and anything else you think appropriate, though I don't want to snow him with material. []

25X1

3. His law office [] can give you the address to which to send all of this. I'd like to preface it with a forwarding note from myself hitting the highlights of the two key points. []

25X1

4. In the letter I would offer then to be available or have you available any time on the morning of the 27th if he has additional questions. []
